

A group of people got together way back in 2007 and thought, wouldn't it be fun to have a bocce court for community enjoyment. That thought and a dedicated group of individuals made that happen. The result has been something that exceeded expectations as Bocce has grown to become a major source of entertainment and activity, creating a wonderful way for residents to meet, enjoy a game, new friendships and build fellowship in the community.

The Bocce League evolved from the original founding members, and to this day it is going strong and grown into 12 teams each year, games played 6 days a week, and a dedicated Steering Committee who oversees the operation and maintenance of the court. Teams play competitively during season, January - March, with playoffs to end the season and a party to celebrate the winners. Many people attend daily matches as spectators or to cheer on their neighbors. Everyone misses Bocce during the off season and as a result, each fall there is a Fun Bocce Tournament to get things rolling.

There is no experience necessary to jump in and learn. Actually, this is how most players began their bocce journey. There are new people every year joining in. It's fun, low impact and anyone at any age can learn and enjoy the camaraderie of the Bocce League. The court is available to everyone in the community to use recreationally. So come out, join the fun and meet your neighbors!
