

## The BG Book Clubs

In Bermuda Greens, we are fortunate to have three book clubs, two that meet from the fall into spring, and one that meets during the summer, providing more opportunities for ladies to participate.

The first book club, the #1 Ladies Book Club (named after the #1 Ladies' Detective Agency by Alexander McCall Smith), began in October of 2001. This group has evolved over the years and now has a membership of around 20 members and currently does not cap their membership. They meet at 1pm the first Monday of each month, October through April in the BG Clubhouse. The members share responsibility for suggesting books for the reading list each year and volunteer (not required) to lead and moderate the book discussions at the monthly meetings. All ladies are welcome!

A number of years later, The Bermuda Bookies evolved into a second book club. This is a group capped at 12 members. They meet once a month, from November through May. These ladies come together to build a greater understanding of a book through shared discussions. They share responsibility for suggesting new books to read and take hosting their meetings.

The Ladies Summer Book & Movie Club began in 2022 and meets once a month from May through October, rotating between a book one month and movie the next. Although there are not a lot of ladies in residence over the summer months, they participate when they can. This is an enthusiastic group and a way for the summer ladies to have a continued opportunity to read and discuss their book selections and attend movies and socialize together afterward to discuss.
