3. Unit owners who plan to be absent from his/her unit for an extended period, (more than two (2) weeks) shall prepare the unit prior to departure according to the following guidelines:
 - a. All furniture, potted plants, and other objects must be removed from the lanai and from around the outside of the unit. If approved hurricane shutters have been installed on the lanai, furniture may remain in place but moved away from the shutters.
 - b. The main water valve inside the unit MUST be turned to the OFF position. The circuit breaker for the water heater must be turned off.
 - c. All units MUST have their air conditioner on, in good working order, and set at a level to prevent mold and mildew growth inside the unit.
 - d. It is strongly suggested that you provide the management company with an alternate address/phone number for emergency purposes. Otherwise, the registered condo watch company will be contacted in case of emergencies at the unit owner’s expense.
