

Message from Bermuda Greens President, Guy Miata

First order of business, thank you all for your participation in our recent Board of Directors (BoD) election and the faith you've placed in us to handle the continued successful operation of the Bermuda Greens community.

While there are, no doubt, challenges ahead for us in the next two years, I would like to thank our immediate past President Fred Demma, and Steve Smith, immediate past Vice-President, for their efforts in handling the myriad of challenges they faced during their tenure. It is through their very visible efforts (and Bob Giese's) with building repairs and painting that BG has returned to like-new condition. Granted, there is still more to be accomplished, and I will do everything I can to ensure this newly elected BoD continues with those efforts and our high standards are maintained.

That said, I think this is the appropriate time to introduce the current board. We are:

Guy Miata, President
Jim Menton, Vice-President
Bob Giese, Treasurer
Mark Chambers, Secretary
Lorrie Beaumont, Director

Please join me in welcoming both the new and repeat members of the Bermuda Greens BoD.

Lastly, one of my goals is to get information out to the you as timely as possible. This includes current project(s) status, upcoming projects, and meeting minutes. We also need volunteers so we can expand current committees.

To this end, and thanks to the suggestion by incoming Director Lorrie Beaumont, a "committee volunteer" (or something to that effect) tab will be added to the website. If you have expertise in building maintenance, project planning, construction, or simply want to be more involved please consider stepping up and sharing the benefit of your expertise/experience with the rest of the community.

Thank you, and, if nowhere else, see you at the pool.

Guy
