

**Annual Roof Maintenance**  
**By**  
**Trafford Pressure Cleaning & Painting**

Trafford will be treating the roofs of our buildings  
beginning  
May 24th-27th.

Work will begin on the A building and work their way  
around the community from there.

This is a clean process with very little product running off.  
It's a safe product and will not damage your plants or  
buildings.

When they are working on your building, please:

**Close all your windows.**  
**Keep vehicles away from the building.**

Trafford uses an environmentally safe fungicide to kill  
mold and mildew on the roof.  
These areas can be slippery until dry.

If you have any questions, please contact:

Harry at 239-514-0722  
Or the KEB Offices 239-262-1396.
