

To all Homeowners and Residents
Roof and Carport Cleaning
Beginning April 22

Beginning April 22nd, Trafford will begin the process of cleaning the roofs on all of our buildings, as well as carport roofs, under side and posts. This will take approximately 7 -10 days to complete.

Anyone with a carport, please plan ahead to make sure your car is moved out from under the carport when your carport is cleaned, as Trafford uses chlorine in their cleaning product.

If you have left BG to return north, please be certain you have your home watcher move the car for you. We will send a reminder with more details when we get closer to the date.

Thank you,
Claire Marie England, CAM
