

Subject: Bermuda Greens News- Clubhouse Reno Project to begin Monday!

Dear Bermuda Greens Residents,

We are excited to announce that the Bermuda Greens Clubhouse Renovation will begin this Monday, June 9th and will likely wrap up around the end of July. During construction, access to the clubhouse will not be available. This is for everyone's safety and we will be sending updates of the project with pictures to keep everyone up to date.

Due to the Florida Department of Health Regulations, the pool will be closed beginning June 9th and reopening around June 30th. The county is reviewing whether a portable restroom would suffice to keep the pool amenities open during construction, we are awaiting their response. Imperial Gardens has graciously agreed to allow our residents to use their pool when the Bermuda Greens pool is unavailable.

We appreciate everyone's patience as these upgrades are completed.
