

Good Morning BG Owners....

I trust that many of you have had the opportunity to explore the new phone application designed to connect our management company with each owner. As we work towards optimizing the new system, there are still several aspects we need to refine for smoother operation.

To assist you in navigating this system, I recommend reviewing the tutorial provided by our Community Association Management (CAM) team. This resource addresses common inquiries related to contacting CAM, submitting work orders, and filing ARC applications. The tutorial offers a step-by-step guide for using both the phone app and the CAM website.

Please find the tutorial link below. Simply follow the on-screen prompts and click the pulsing orange radial button to progress through the tutorial. I hope this resource proves helpful in addressing any questions you may have regarding the new system.
