

Dear Residents and Property Owners,

As we prepare to commence a new season at Bermuda Greens, I would like to extend a warm welcome back to our seasonal owners and congratulate our full-time residents on successfully navigating another summer characterized by warm temperatures and frequent rain.

Several activities and updates are underway as we gear up for the upcoming season. The Bocce courts will soon host enjoyable social play, with regular competitive Bocce scheduled to resume in January. Additionally, the social calendar has been published on the website, allowing everyone to mark their calendars for upcoming events.

The Board is actively working on several important initiatives, including the renovation of the existing Bocce court, the acquisition of new pool furniture, and the development of the 2026 budget. Our upcoming meeting is scheduled for October 30th at 12:00 PM, to be held at the clubhouse and via Zoom. This meeting will serve as a forum to discuss these significant projects. We encourage all interested residents to attend.

We are excited about the annual Bermuda Greens golf event at the Imperial Golf Course taking place on Wednesday, October 29th and the dinner at the clubhouse after the event. My understanding is that it will be very well attended.

Finally, we are pleased to inform you that a new newsletter, modeled after the former Bermuda Greens Bugle, will be launched soon. We hope you will find the new format engaging and informative.

Thank you for your continued involvement and support. If you wish to get more involved on any of our working committees, please visit our website at <https://bermudagreensnaples.com/involved.htm> and click on the link to get involved. Wishing you a safe journey for any last-minute travel plans as we transition from summer to fall.

Lorrie Beaumont
BG President
