

Great News!! From Xfinity

As we continue to invest in our network to enhance value of XFINITY Internet and support our customers' ever-increasing number of connected devices, our upload and download speeds remain core to our competitive advantage. Recently, we kicked off our speed increase with a 50% increase to Gigabit Pro upload and download speeds – going from 2G to 3G. Then, on October 12th, most of our speed tiers will also get an increase meaning our customers will receive faster speeds at no additional cost. On the date of the increase, customers will simply power cycle their modems to receive the faster speeds. We have increased Internet speeds over 20 times. It is our proactive approach to keep our customers ahead of demand. Here is a look at which speeds will receive an increase:

Data Package	Current Speed	New Speed Effective Oct 12
Internet Essentials	50/5	50/5
Performance Starter	50/5	50/10
Performance	100/5	100/10
Blast	200/10	300/10
Extreme	400/20	600/20
Extreme Pro	800/20	900/20
Gigabit	1.2G/35	1.2/35
Gigabit Pro	2G/2G	3G/3G Effective Sept 30

More Than Just Internet: In addition to delivering the fastest speeds, Comcast provides unmatched value to Xfinity Internet customers through:

- **Superior WiFi coverage**
- **Control connected devices** – Using the Xfinity app, customers who lease an xFi Gateway have total control of their home network; manage device access, set parental controls and pause WiFi.
- **Advanced cybersecurity protection** – xFi Advanced Security helps to protect all connected devices at the gateway level from malware and other cyber security threats.
- **The nation's largest WiFi network** – Access to more than 20 million WiFi hotspots across the country is free to Xfinity customers; three times more than any other provider.
- **Xfinity Mobile** – Xfinity Internet customers can get Xfinity Mobile, which combines the nation's best 5G network with the power to auto-connect to millions of Xfinity WiFi hotspots across the country. Go to: <https://www.xfinity.com/mobile> for more information.
- **Peacock Premium and thousands of hours of free content** – Peacock, NBCUniversal's streaming service, delivering originals, libraries of hit TV shows like "The Office" and "Parks and Recreation," plus films from Universal Pictures, Focus Features, DreamWorks Animation, Illumination and Hollywood's biggest studios.
