

Dumpster Use and Bulk Pickup

Effective immediately, Waste Management is implementing a commercial anti-litter initiative called C.L.E.A.N. Collier (Community Litter Environmental Protection Awareness Initiative). The Initiative could potentially impact Bermuda Greens and the area around the dumpster. The new program is intended to stop the overflow and litter around the dumpsters they service. If the dumpster is overflowing with trash and/or there is trash left on the ground, Waste Management will take a picture of it and send it to the Association with a letter. It will also be sent to the County and if after review, they decide to fine, they could charge us a \$79 overload fee for each offense.

We need Bermuda Greens Owners and their Tenants to make sure to place all waste and garbage into the dumpster and close the lid tight to avoid any potential fines.

BULK ITEM REMINDER: Large items such as lamps, furniture, appliances, electronics, cabinets, carpets etc do **NOT** belong in the dumpster or within the fenced in area. Instead, **you can request a FREE bulk pickup by calling 239-252-2380** to have those items picked up from your driveway or carport parking spot.

Call at least two days ahead for Friday morning pick up.

Large items left in the dumpster area result in Bermuda Greens having to pay to have them removed. **The service is free** from your driveway or carport spot.

Everyone's cooperation is greatly appreciated! Let's keep Bermuda Greens beautiful and keep unnecessary costs under control.
